MAIN EQUIPMENT

EXTERIOR

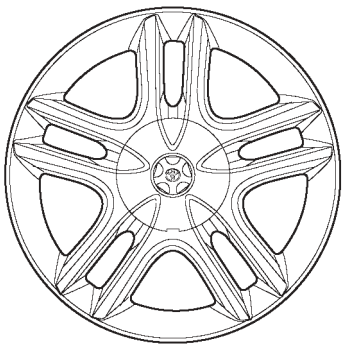

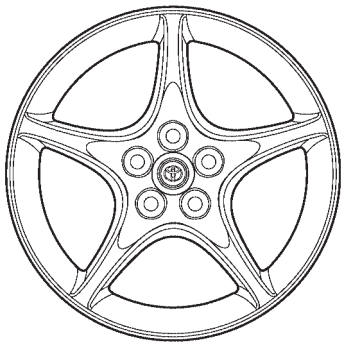

TIRES AND DISC WHEELS

All models for Europe use 195/60R15 tires on steel wheels as standard equipment, and all models for Australia use 205/55R15 tires on steel wheels.

- The steel wheels use a 5-spoke wheel cap that achieves a new look through its deep, three-dimensional shape and innovative graphics.
- On all models for Australia, 15 inch, 5-spoke aluminum wheels, which express the vehicle's strength and sportiness through their three-dimensional 5-twin spoke design, are available as optional equipment.
- On all models, 205/50R16 tires on 16 inch, 5-spoke aluminum wheels that express lucidity and sportiness through their slim spokes, are available as optional equipment.

OUTSIDE REARVIEW MIRRORS

Power remote-control type outside rearview mirrors are standard equipment on all models.

- On all models for Europe, wide type mirrors in which the curvature at the end of the mirror gradually changes is provided as standard equipment to expand the field of vision diagonally behind the driver seat, thus improving the driver's visibility.
